Trencadis

UX Designer
Bucharest / Oradea / Baia Mare

We are looking for a UX Designer with strong interests and capabilities in the design and development of engaging user experiences to join our team in Bucharest/Oradea/Baia Mare. The ideal candidate will thrive in a work environment that requires problem solving skills and independent self-direction, coupled with an aptitude for team collaboration.

Duties and responsibilities

- Develop wireframes, storyboards and scenarios, behavioral specifications and personas

- Testing wireframes with real people before implementing them

- Liaising with clients, contractors, stakeholders

- Design and test prototypes of new site experiences with users through small-scale usability tests and live on-site experiments

- Work closely with Presales/Sales team and Engineering teams to better understand business and customer goals, as well as technical requirements

- Work with leaders in other disciplines to develop solutions that leverage the expertise of all involved

- Drive the definition of bold, disruptive, and delightful product experiences for our users

Qualifications

- 3+ years experience designing web apps/UX

- A portfolio showcasing examples of related design work

- Attention to details with the ability to manage multiple projects

- Experience with one or more of the following design tools: Sketch, InVision, Adobe Photoshop, Axure, Omnigraffle

- Working knowledge of HTML, CSS, Rails, JavaScript/JQuery, iOS, Android is a plus

We are offering:

- Motivational salary and performance-based bonuses

- Flexible schedule, but disciplined work

- Great professional environment and personal development opportunities

- Talented team, innovating projects, courageous objectives
